Track, Manage and Save with VehiclePath

Business Intelligence for Local Fleets

Maximize your mobile workforce.

Don't just manage your fleet. Maximize it with VehiclePath. Innovative, easy to use and affordable, VehiclePath combines the powerful features and cost efficiencies of Global Positioning Systems (GPS), Mobile Resource Management (MRM), and Software-as-a-Service (SaaS) technology to help you:

- Manage your fleet more efficiently
- Reduce fuel and labor costs
- Lower maintenance costs
- Increase productivity
- Enhance customer satisfaction
- Improve safety, reduce risk and lower insurance costs
- Monitor and protect non-powered assets

Drive your fleet performance.

Get on the path to improved fleet performance and cost savings with VehiclePath, the powerfully simple tool for smarter fleet management. VehiclePath arms you with the intelligence you need to:

Improve worker performance and compliance. Track start/stop times, see driver routes, and receive time stamps for entering or exiting a job site so you can maximize your drivers' productivity.

Detect and eliminate waste and fraud. Identify and correct driver behaviors that infiltrate your business and impact your bottom line, including:

- Speeding
- Excessive idling
- Route and schedule compliance
- Travel outside authorized areas
- Unauthorized use of company vehicles
- Labor costs

Increase accuracies and efficiencies. Ensure accurate time reporting for billing and payroll, and on-time scheduled vehicle maintenance.

See what's costing your business.

VehiclePath lets you map, monitor and manage fleet activities that are costing your business, 24/7 via an intuitive web-based user interface ... so you can control and correct them.

- Fuel consumption
- Worker productivity
- On-time customer service delivery
- inaccurate billing

Designed for you.

Designed with input from fleet managers, contractors and thousands of users, VehiclePath delivers the fleet intelligence you need in a format you understand.

- Receive text or e-mail alerts so you know what's happening, when it happens
- Monitor and view fleet performance with extensive, customized reporting tools
- Receive automatically generated reports (No need for additional work or staffing)

Simplicity, versatility and affordability for every industry.
